

We can see the future...

Do you already know what to do after your graduation?

To find a new job? To go on an internship?
Further studies?

Everything will be easier with the certificate!

Your school is certified by IES and therefore you can also get your IES certificate, which you might find useful when looking for a job both at home and abroad.

For high school students: You can use the IES certificate even if you decide to study at a university. It will be very useful when you look for a part-time job and scholarship during your university studies. Your future employer will be interested in all your documents confirming your education.

For university students: You can use the IES certificate with the most prestigious world employers and the best employers according to the national ratings.

Where do you want to work?

We will inform all possible employers!

Thousands of employers are informed about the IES certificates, however, it is possible that not your potential. If you know for whom you want to work (it doesn't have to be only for one company), look at the webpage of IES (the link "IES certificates recognition") and verify that the subject employers, who you are interested in, are informed. If you don't find them there, please, let your school know or write directly to us at ies@ies-info.com. We will assure that they will get informed before you will visit them with the IES certificate.

Feedback

I work for a Czech company in the field of the Internet sale, we belong among the strongest at the market. I work as a deputy leader for the customer service, this job is based on an everyday contact with the customers, solving the crisis situations and education and training of colleagues. The IES certificate helped me a great deal because they were looking for a person with a university degree which I don't have. I was told that the certificate had been a guarantee that my work would be based on the quality and my education would accomplish more than "an ordinary maturita".

*Katarína Bodnárová,
the graduate from High School of Business, Prešov, Slovakia*

I didn't have any problem with finding a job after I got the IES certificate. I have just been offered a position of a pharmacy technician. So thank you very much.

*Jana Novotná,
Dartford, England (the graduate of The Secondary Nursing School,
Olomouc, Czech Republic)*

I have ordered your certificate after graduation from the high school to verify that my school is at the internationally accepted level. The certificate was accepted in Slovakia and Hungary and I was offered a better job. The certificate was a big advantage for me.

*Dávid Botlík,
the graduate of The Secondary Technical School, Komárno, Slovakia*

IES-Certificate is the "lucky ticket" may contribute to my PLAB score I am going to pass in UK to get the professional degree of the first level. *Mehta Saket Kumar,*

Crimea is too far from India and not all there hear and know about CSMU. IES-Certificate helps me to be recognized as the graduate from the University of the high education quality.

Prajapati Vimal Kumar,

IES-Certificate solidifies CSMU diploma and rises my chance to get a position at the good clinic.

Prajapati Priyanka,

Reference

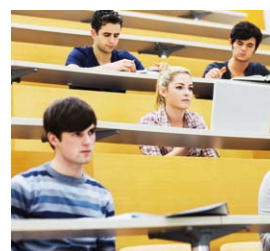

Our university considers the project of the collaboration with the International Education Society (IES) as the great opportunity to be involved into Universities world. It is of big responsibility, and requires efforts from CSMU educators and students to satisfy IES-Certificate gained of the very high category. This encourages everybody in CSMU to progress and contribute to CSMU development. The consolidation of IES – CSMU cooperation is one from the priorities of CSMU development strategy.

*Medical Academy named after S.I. Georgievsky of V.I. Vernadsky
Crimean Federal University, Simferopol*

In the context of globalization and Russian internationalisation, international acknowledgement of an educational institution and its diploma becomes a must. More than 130 students of our school have already obtained the international IES certificate. Some of our students even got a job in Europe, America or Turkey. The IES company proved to be a reliable and stable partner, providing professional approach and in this way, it proves its high professional status. We definitely recommend International Education Society (IES) as a competent organization in the field of educational programmes evaluation.

Voronezh Institute of High Technologies in Voronezh, Russia

We have issued more than 1,650 certificates during our cooperation with IES. Thanks to the certificates, our students have a bigger chance at the Polish and even international labour market.

Katowice School of Economics in Katowice, Poland

We are really proud of our long and fruitful cooperation with the International Education Society! It contributes greatly to the development of international relations of Makiyivka Institute of Economics and Humanities in the field of higher education, thus improving the quality of educational services, and maintaining a positive image of the higher education institution of the university level in the region. In addition, to be issued an international certificate of IES is a powerful incentive for active learning and research activities of our students. We do admit that the IES staff are good and reliable partners in our educational activity!

Ukraine*

Feedback

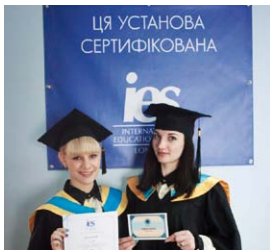

"I'm happy to be working for the 'International Airlines of Ukraine' company, having previously passed testing and an interview in English! Many thanks to my professors and instructors, and I am very grateful to the International Education Society, the certificate of which appeared a powerful argument for signing a contract with me!"

*Ruban Diana,
graduate of Makiyivka Institute of Economics and Humanities,
Makiyivka, Ukraine*

"I have worked for several years as a manager for 'Alex-Skhid' company. This year I have graduated from Makiyivka Institute of Economics and Humanities with a diploma of an economist in accounting and auditing. Together with a university diploma I received the IES certificate of international recognition. Thanks to these documents I was promoted to the position of senior manager responsible for foreign trade and I do hope success will attend me in my future career".

*Shokhin Denis,
graduate of Makiyivka Institute of Economics and Humanities,
Makiyivka, Ukraine*

"From time to time a question crops up as to the rating of your university, because, unfortunately, in Europe and the USA there is too little information about Ukrainian universities. In cases like these the IES certificate is almost 100 percent guarantee that you will be understood, recognized and appreciated. An external surety always proves to be weighty".

*Aleksey Lysenko,
graduate of Makiyivka Institute of Economics and Humanities,
Makiyivka, Ukraine*

The process of certification helped us define our strengths and weaknesses. Thanks to certification and international evaluation of our educational programmes, we have noted a bigger interest in our school. The candidates appreciate the possibility to obtain the international IES certificate.

Colegiul Tehnic Energetic, Constanta, Romania

Feedback

Certification is a sort of guaranteed quality of education with the possibility of international comparison. There are more than 50 students who order the IES certificate every year.

The Secondary Nursing School, Košice, Slovakia

We have been ordering from 15 up to 50 international IES certificates every year since 1998. It is a big advantage to hold the international IES certificate. The graduates don't have to work only in warehouses or as au-pairs. They are fully qualified and also get a decent wage. We also took advantage of the way of paying for the certificates. The students start saving their money in the first year of studies and their money goes to a special account.

The Secondary Specialized School, Svit, Slovakia

When meeting the graduates, we always get a positive feedback from the holders of the certificate about how important and significant it really is to have the certificate because it is easier for them to get a good job and to be successful at the labour market. The certificate helped the graduates with being employed not only by companies in our country but also by companies abroad. Furthermore, if you hold the certificate issued by a certified school, the salary and quality appreciation is adequate in foreign companies. And in companies in our country, a quicker promotion is also possible.

The Secondary Technical and Vocational School, Pelhřimov, Czech Republic

For the third year our institution cooperate with International Education Society (IES) and we are very satisfied with their professionalism. Annually, our institution will issue about 70 IES certificates. Certification by IES increased not only the prestige of our MBA and LL.M. programs, but also great interest about studying postgraduate programs offered by our institution. A high prestige of programs at Institute of Law and Legal Science provided by 10-years stability of BBA, MBA and LL.M. educational programs and international accreditation and certification IADL and SGS and cooperation with the European Business School SE gets in the form of multinational certification International Education Society (IES) hallmark one of the best professional institutions throughout the Czech Republic.

Institute of Law and Legal Science, Prague, Czech Republic

Your school got the international IES certificate from International Education Society (IES), London, which has been certifying exclusively the educational institutions in Eastern and Middle Europe since 1997. The result of the certification is the qualitative evaluation of its level expressed in the way of a rating. The rating is based on a 12 level scale. The quality of the certified school is verified regularly and its rating is updated every year.

The certification of the school is the most useful for the students. The students have the opportunity to get a recognized document, the IES certificate, thanks to the certification. This certificate proves the level of the school in the way of a rating and altogether with the university diploma, high school report, the apprenticeship leave certificate, or some other documents it represents your profile for a future employer. The certificate doesn't rate you, but the school, which you are studying!

The certificate is recognized at the domestic and foreign labour market. It is comprehensible to everyone because it is issued in both the official language and English. It is possible to choose from 30 languages according to your needs. Apart from the information about the level of a particular school in a given year, the IES certificate also contains a bilingual appendix which specifies the profile of a graduate. This information is very important in terms of the content of the studies as well as about the expertise and skills of the certificate's owner.

To own the IES certificate increases the chance to get a job because its owner has a logical competitive advantage at the labour market before the graduates from the uncertified schools.

The IES certificate has the protective elements to avoid counterfeiting – a seal with a gold stamp and a hologram. It is possible to verify the identity of the certificate and its owner via the Internet. A potential employer can, therefore, check the authenticity of the certificate.

The first condition to get the IES certificate is to successfully complete the studies and the leaving exams (university leaving exams, school leaving exam, apprenticeship leave certificate). The second condition is to pay the fee determined by the school.

Important warning: You can use the IES certificate at any time in the productive age, meaning that the certificate serves its owner for decades. Therefore, it is reasonable to save it well altogether with the report.

The IES is registered in England. Your inquiries will be answered by the office for client support in Brno, the Czech Republic, where the management of IES resides as well. We communicate in Czech, English, Russian and Spanish.
